

21st February 2023

Dear parent/guardian,

This half-term in school we will be launching our new Spanish curriculum. The children are all very excited as this scheme includes a handful of games and karaoke songs that they can access at home. The children will also be accessing the games in school as part of their Spanish lessons.

The games that your child can access are set by their teacher in school and linked to their current unit but there are also some extra games for them to play, should they wish to challenge themselves!

The app is completely safe, free and is compatible with most devices. You can find it by searching 'Languages Angels' in the app store. Your child will be required to log in with their class username and password which they can find in their reading journals by the end of this week.

Your child can also access the games from any device without installing an app by searching 'Languages Angels' in the search bar on any device that they can access the internet or alternatively by following this link:

<https://www.languageangels.com/schools/index.php>.

If your child is accessing it in this way they will be required to press the login button and select pupil games.

If you do have any problems accessing the games, please do not hesitate to contact your child's class teacher or myself.

Yours sincerely,

Miss Rooney
